

Who we are.
What we stand for.

Since our founding in 1983, Humanscale has pioneered workplace ergonomics. Now, we're the global leader for ergonomic products for home, work and healthcare spaces.

From seating to lighting and beyond, Humanscale creates high-performance tools that adjust to the people who use them, rather than the other way around.

Performance
Simplicity
Beauty

At Humanscale we believe the best designs in the world are based on purpose and function. If a design solves a functional problem as simply and elegantly as possible, the resulting form will be honest and timeless.

Superior Performance

Uncompromising performance is at the heart of every Humanscale product. Our products are created in accordance with how people actually work, providing unsurpassed comfort while encouraging effortless, intuitive use.

Elegant Simplicity

We believe that the highest level of functionality is achieved through simplicity. For example, with our chairs, we replace heavy, complex mechanisms with the sitter's own body weight and the laws of physics.

Timeless Beauty

Design should start with solving a functional problem as efficiently as possible. The aesthetics that flow from this approach are honest, timeless and globally appealing.

Sustainability

“The key to sustainability is efficiency.
No amount of recycling will equal using less in the first place.”

Niels Diffrient

“Simplicity is the ultimate sophistication.”

Leonardo da Vinci

Creating a more comfortable place to work
