OPS2 Signature Series

OPS2 Signature Series

Our OPS2 Signature Series features new U.S. product made to major manufacturer standards. Enjoy the ability to modify your stations with benching options, glass and fabric mullions and stackers.

Our Signature program also offers our largest selection of fabrics and finishes so that you can be assured your office is customized to fit your specific work environment!

Within the Signature Series, we utilize an aluminum top cap and one-piece rail where the slot channel and trim color are the same. In addition to styling, the one-piece rail is beneficial when connecting panels of different heights are in a straight line. The 4-circuit power utilized has the outlets located in the middle of each panel, allowing for two duplex receptacles on each side of 24"- 60" panel. Attached to the power harness are the jumpers for power continuation from panel to panel and panel through connector.

Included under the OPS2 Signature Series are the following lines: Panels, Tiles and Modular Walls.

Tiles

As the work place continues to evolve, so should your work space!

Our OPS2 Tile Systems give you the flexibility and adaptability to create your desired business setting of today and affordably evolve with the future.

Employing the original open-plan concept, create a designer look at a budget price with the all new OPS2 Tile System. This product is exclusive with our Signature Series and is fully compatible with existing AO2 workstations and accessories. This design is engineered to save space and adapt by using interchangeable components. We have developed a true tile system to integrate with the original Herman Miller Action office panels. True stacking along with glass, open frame tiles, acoustical and perforated tiles.

Our OPS2 Tile System is truly a guaranteed investment!

Tile Heights	Tile Widths	Tile Frame Heights	Tile Stacker Heights	Add Tile Stacker to Achieve
★ 7"	★ 24"			
★ 14"	★ 30"	★ 39"	★ 8"	★ 47" H
★ 18"†	★ 36"	★ 53"	★ 14"	★ 85" H
	★ 42"	★ 67"	★ 18"†	★ 103" H
	★ 48"			

† 18" H can be used as bottom tile or 18" stacker only.

Open Plan Systems

Panels

Give your office an updated feel. Open Plan Systems has many options current with industry trends including low panels and modern colors.

Modular Walls

Refine Your Space.

In a collaborative work environment, modular walls allow for the open plan concept paired with the management of noise and distractions. Create a new conference room or private office at a fraction of the cost of alternative solutions. Add space to existing buildings with new floor to ceiling modular walls and doors that accommodate ceilings up to 9 feet high. With finish offerings of fabric, acoustic and laminate panels, we are confident you will be satisfied with the quality and value of our modular walls. UL Listed with a Class A Fire Rating.
